Judging by the Cover - Web Site Updates

The old saying "Never judge a book by its cover" doesn't apply to a web site. Visitors to your site make **quick and often harsh judgment calls within seconds** of viewing your home page. By making an outstanding first impression with a crisp, clean, professional look the user gets a sense of trust from the company behind the site.

- New features can dramatically improve the visitors experience.
- Your website could be your cheapest employee
